

2010/2011 University Students' Council
Meeting #6
October 27, 2010

Posted Motion #1

Whereas, part-time undergraduate students are not included in the health plan provided as part of the student fees;

Whereas, the Finance Standing Committee was tasked by council to determine the feasibility of including part-time students in the health plan;

Whereas, the feasibility including part-time students through an "opt-in" option would come at an increased cost to the University Student's Council;

Whereas, the feasibility of including part-time students with an "opt-out" option to the health plan would not change the current fee of \$96.00 for full time students;

Be it resolved, all part-time undergraduate students will be included in the health plan with the option to "opt-out" at their own discretion.

Felice/Buccella
